SOLDIER AND MINER KILLED IN WALKER COUNTY; ARRESTS EXPECTED HOURLY

Private Morris Kills Adrian
Northcutt and Himself
is Slain

EXHAUSTIVE PROBE IS LAUNCHED BY OFFICERS

Nauvoo is Being Closely Guard-
ed Today by Heavy Mil-
itary Patrols

(International News Service)

JASPER, Ala., Dec. 23.—Following the killing from ambush Wednesday night of Private Morris, of Company M, Tuscaloosa national guards, Nauvoo, in Walker county, is being guarded by heavy military forces today and an arrest is expected at any moment. The slaying of Morris, according to report, followed the killing by Morris of Adrian Northcutt. The latter, a union miner, was arrested by Morris and Private Perdue on charges of picketing and intimidation when trouble followed his arrest, it is said, Morris shot him to death.

Perdue had gone for an automobile following Northcutt's arrest, and after having gone a short distance, heard three shots. He returned to find the dead body of his companion.

The one or more persons who did the shooting had fled. Morris was shot three times. His body was brought to Jasper where internment will take place Friday. This is the first tragedy that has occurred since the placing of troops in the mine district during the strike.

Immediately upon being advised of the trouble, General Steiner left headquarters in Birmingham to take personal charge of the situation and a strong detachment of troops under command of Sallaw was sent to the scene to assist Captain Lollar, of Tuscaloosa, who is in command of the district about Nauvoo. No further trouble has been reported so far and military authorities are making every effort to capture the person or persons who killed the soldier.

WHITE MAN SLAIN BY A TEXAS MOB

BODY OF THOMAS W. VICKERY
FOUND SWINGING FROM
A TREE

FORT WORTH, Texas, Dec. 23.—The identity of 25 armed and masked white men, who last night entered the Tarrant county jail, seized and lynched Thomas W. Vickery, a white man, remained a mystery today. The hanging occurred at midnight last night, the body being found swinging from a tree in a grove near the edge of the city. Vickery surrendered to officers Monday night following the shooting to death of Policeman Jeff Couch, while on his beat.

The latter had been called to a garage following a disturbance, said to have been caused by a drunken man. Later Vickery appeared, whipped out a revolver and fired seven shots into the officer's body, it was said.

Tommies Insulted Old Glory, She Says

(International News Service)

WASHINGTON, Dec. 23.—Mrs. Myrtle Mohan of Corona, Long Island, today testified before the American commission investigating conditions in Ireland that British soldiers had been ordered to "tear down that American flag and trample on it," when she had hung the emblem in front of her parents' home in Queens-town. Two men in officers' uniforms had attempted to climb the post upon which the flag was mounted, Mrs. Mohan testified. Unsuccessful in their attempt, she declared, the soldiers, shouting epithets, smashed all of the windows of the house.

She declared she had protested to the American consul.

2 COUPLES ARE MARRIED HERE BY REV. HILL

The second double wedding here in recent months was solemnized last night at the home of Rev. J. H. Hill, pastor of the Moulton Street Christian Church, when he performed the ceremony uniting two Falkville couples.

The brides and grooms were: Miss Ruth Gladys Patterson and Mr. Charlie E. Howse; Miss Lotie L. Summerford and Mr. Felix B. Thomason. All are well known and announcement of their marriage will be of affectionate interest to hundreds of friends in Morgan county. Following the ceremony they returned to Falkville via automobiles.

FRANK HOME IS ROBBED; VALUABLE LOOT CAPTURED

The home of Sam Frank, East Market street, was entered and robbed late yesterday of many valuable articles. Bloodhounds obtained at 4 o'clock this morning attempted to pick up a trail, but were reported unsuccessful.

Included in the articles taken were: 2 diamond bar pins, 1 thirty-second degree Masonic pin, set with diamonds, 2 men's suits, 1 woman's suit, 1 brown suit case, 1 hand bag, 8 new pair of socks, 1 woman's fur, 1 dress, a quantity of silverware.

The robbery was one of the most daring in recent years here. The home was vacant during the day, the family being down town. Mr. Frank returned home about 6 o'clock yesterday afternoon, fixing the time of the robbery at an earlier hour. Police thought it possible the robbery was committed in daylight. Entrance was gained through a window.

A reward of \$100 was offered today for information leading to the arrest of the thieves.

You folks who have been reading and talking about the big automobile campaign and wondering whether or not it is a good thing to get into, should come forward now and enter your name. If you have the least desire to own an automobile of good value and have enough energy about you to be willing to work for it, don't hesitate longer.

Quite a number of folks are making a great mistake by confusing the great value of the prizes at stake with the amount of subscriptions that it will take to earn one of them. Let's make a little comparison. It has been demonstrated time and again, that folks collect or sell a far greater number of tickets for some bazaar or social entertainment in order to win a medal of a prize of small value than is necessary to turn in subscription payments in order to earn a fine touring car. Remember this—the best one can do is all they can do, regardless of whether the prize at stake is a fine tooth comb or a battleship. All that is necessary for you to do in order to earn one of the fine

CHRISTMAS PARTIES GIVEN CHILDREN BY TWO ORGANIZATIONS OF THE TWIN CITIES

Shriners Banquet Given in Ball-
room of Old Colonial
Club Today

KIWANIS TREE AT 5:00
ON FRIDAY EVENING

All Arrangements for Affairs
Were Completed Early
This Morning.

Final preparations were completed early today for the two big Christmas parties for the less fortunate children of Albany-Decatur and neighboring communities.

The first party, given by the Shrine Club, began at one o'clock this afternoon. The second party will begin at 5 o'clock Friday afternoon. It will be given by the Kiwanis Club.

These two great organizations have spared no effort in making the Christmas of 1920 a period to be long remembered by the children of the Twin Cities.

Banquet and Tree

The Shriners' party will be staged in the ballroom of the old Colonial Club. The room has been attractively decorated. The tables were all arranged early this morning in a square with a giant Christmas tree in the center. The banquet will be served by the wives of the Nobles to between 125 and 150 little guests.

The menu, prepared under the direction of the committee headed by Mrs. Vera Austell, includes turkey and all accessories. In the words of one Noble, the "little tummies will be fed until they are so tight the little owners will have to loosen their belts. We have made reservations at the hospital for any who may suffer from over-eating."

Santa Claus, impersonated by Seneca Burr, will distribute the presents to the guests immediately after the dinner is concluded and a basket of provisions will be sent to all of the guests' homes.

Kiwanis Tree

Chairman Calvin of the Kiwanis tree committee announced this morning the tree, which has been placed on the court house lawn, will be decorated this afternoon. Distribution of presents will be started at 5 o'clock Christmas Eve, Rev. G. M. Davenport acting the role of Santa.

All of the presents have been purchased and the preliminary arrangements completed, Chairman Calvin announced. He extended a cordial invitation to every member of the choir of local churches to be present and aid in the musical program. The public also has been invited to witness the ceremonies.

HARDING CONSIDERS PRACTICAL POLITICS FARM FINANCE AND CABINET SELECTION

Herrick, Upham and Dougherty

dent-Elect Today.

OFFICIAL FAMILY NEAR
MAKE-UP IS REPORT

Discussion of Association of Na-
tions Expected to End
January 15.

(International News Service)

MARION, O., Dec. 23.—Farm finance, practical politics and cabinet possibilities occupied the field of discussion between Senator Harding and his visitors today. Those visitors included, among others, Myron T. Herrick of Cleveland, banker and former ambassador to France; Fred W. Upham, treasurer of the Republican nation committee, and Harry M. Dougherty, one of the President-elect's closest political advisers.

Indications backed by the highest authority that the new secretaries of state and treasury might be announced and begin to function in an investigatory and advisory manner before March 4, has increased speculation as to the selection for these posts. It has been established beyond question, it was stated at Harding headquarters, that Charles Evans Hughes and Philander C. Knox are under serious consideration for the former positions.

Senator Harding, according to authentic reports, expects to have three members of his official family determined before he leaves Marion for the South in January. Around these, it is said, he will build the remainder of his cabinet, each member of which will be pledged to a program of departmental reorganization and retrenchment. Discussion of Senator Harding's plan for an association of nations with the "leading minds" of the nations probably will be concluded by January 15, it was announced.

PROSECUTOR AGREES ON BAIL IF SHE WILL MAKE AFFIDAVIT SETTING FORTH DEFENSE— CLARA SMITH HAMON CAUGHT

(International News Service)

ARDMORE, Okla., Dec. 23.—The arrival of Clara Smith Hamon, alleged slayer of Jake L. Hamon, millionaire and member of the Republican national committee, in custody of Sheriff Garrett, was awaited here with tense interest today. Ardmore was stirred to a greater degree of excitement by news of her voluntary surrender than by first accounts of the shooting of Hamon.

County Prosecutor Brown stated today he expects Mrs. Hamon to reach Ardmore between sundown tonight and sunrise tomorrow morning. He declared he would arraign her in district court as soon as she arrived and would agree to release her under a \$10,000 bail, providing she made affidavit to the manner of defense she will offer at the trial. This affidavit is necessary under Oklahoma laws, explained Brown.

Brown said bail would be made before district court Judge Champion. He added his plans for the prosecution were rapidly materializing and that citizens of Ardmore were beginning to give him more assistance in preparing his case.

SALVATION ARMY TO SUPPLY MANY BASKETS TO POOR

The Salvation Army will supply many baskets to the poor of the Twin Cities and neighboring communities, it was announced today by Capt. F. L. Abbott, in charge of the station here. The following statement was issued: "The Salvation Army will supply all Christmas baskets in answer to appeals this year. The public is requested to respond to the army's appeal as there are at least 50 needy families to be supplied this Christmas and many are calling for help from the country. The Salvation Army has been drawn upon very heavily this month for relief and its funds are almost exhausted. The kettles will be kept upon the streets until late Friday night as all money dropped in the kettles will be needed badly."

Hope Abandoned For Three Officers

(International News Service)

NEW YORK, Dec. 23.—Hopes that the three missing balloonists who left the naval station at Rockaway Point, Long Island, ten days ago on a flight to Canada would be found alive was practically abandoned by naval officials here today. Officers gave it as their belief that the big gas bag had been forced down somewhere in the depths of the forests. The chances that the three officers had escaped death, they said, were slight.

REPORT ON HOUSING
SHORTAGE DELIVERED

Committee's Recommendation on
Acute Situation Made to
the Senate

(International News Service)

WASHINGTON, Dec. 23.—President Wilson will veto the omnibus tariff bill, levying duties on agricultural products passed by an overwhelming vote in the House last night, if it is passed by the Senate and sent to him, according to intimation conveyed to certain Democratic leaders today. While no official statement on the subject has been forthcoming from the White House, it was authoritatively stated by leaders, in position to ascertain the President's view regarding legislation, that the President was not in sympathy with present congressional efforts to meet the country's financial and economic situation.

The President's course toward the resolution reviving the war finance corporation, passed by Congress recently, is still being awaited with undisguised interest. With both the Senate and House in session today, it was reported the President might send the measure back to Congress with his veto as a Christmas present to those members who supported it.

Recess Planned
The Senate plans to recess today until Monday and from Monday to the succeeding Thursday and again to the following Monday, so as to give its members ample time to celebrate the advent of Christmas and the New Year.

Reduction in wages is one of the remedies for America's shortage of hours, Senator Calder of New York, chairman of the Senate committee on reconstruction, declared in the Senate this afternoon. His committee recently completed an exhaustive and nationwide survey into housing conditions.

High transportation and fuel costs are discouraging building, Senator Calder said, but there can be no reduction in these costs "unless there is some reduction in wages." With regard to labor in the building industries, Senator Calder declared "there is evidence we are approaching a period when living costs will be reduced. When that time comes, labor must share its part."

Not Going Back

Building construction prices will never come back to the pre-war level, Senator Calder said, warning that "unless producers can make profits, the shortage of houses will continue. In fact, it will become even more embarrassing than it is today."

Senator Calder suggested the following plans for encouraging building: Legislation providing that 50 per cent of savings deposits may be loaned in mortgages; (2) reduction of high wages; (3) tax exemption on incomes from mortgages; (4) restriction of the issuance of tax exemption securities; (5) creation of a home-loan banking system; (6) reduction of wages when living costs are reduced; (7) cancellation of all transportation priority orders; (8) establishment of a department of construction.

Senator Calder said it is time for the government to pay close attention to the housing situation and human welfare, declaring "would it not be better to act now than to wait and have the people of America rise up in discontent and demand that the government, itself, go into the house business?"

THE OIL DEVELOPMENT

The Daily is much concerned over the possibility of the early development of the oil fields in this vicinity, more so because of the development which would come to this section than because of any interest directly in the oil production.

The details of the plans of the citizens behind the development here are not known in their entirety but once and for all, The Daily is sure, the public generally would welcome a definite conclusion on the mooted question of whether there is oil here or not. Geologists have made several surveys and have been convinced there is oil underneath the soil of the Tennessee Valley. Those of us who love the valley and long to see its many natural resources come into their rightful place, hope, aside from any mercenary spirit, that these reports are true.

Since the automobile became a general means of travel, the consumption of oil in one form or another has increased by leaps and bounds. The apparently plentiful oil supply of a few years ago now is rapidly diminishing and the new oil fields are a necessary consequence. The established fields have been unable to cope with the increasing demand and the development of new fields was made a necessity. It appears that the present is an opportune time for investigation here.

Since the automobile became a general means of travel, the consumption of oil in one form or another has increased by leaps and bounds. The apparently plentiful oil supply of a few years ago now is rapidly diminishing and the new oil fields are a necessary consequence. The established fields have been unable to cope with the increasing demand and the development of new fields was made a necessity. It appears that the present is an opportune time for investigation here.

There are few industries which develop the community in which they are located more rapidly than does a battery of oil wells. Not only do the wells bring into a community the oil speculators, drillers and persons interested primarily in the product, but the influx of population causes an expansion of all other business, with the resultant need of more workers in every other field of endeavor.

The Daily is impressed with a dispatch received from Edmonton, Alta., regarding the rush for the fields in Canada. What is happening there will happen here if oil is discovered. The dispatch follows:

EDMONTON, Alta., Dec. 22.—Enforcing the grub-stake ordinance of the old Yukon gold stampede, Royal Northwest Mounted Police are turning back prospectors heading for the Mackenzie River. With winter closing in, hundreds of adventurers have set out with pack-trains and dogsleds for the new oil field at Fort Norman to stake claims before the expected rush starts in the Spring. The police are overhauling these adventurers on the trails of the North and forbidding all to continue the fool-hardy journey who are not physically fit to withstand the rigors of an Arctic Winter or who are not adequately provisioned.

Police precautions may prevent a repetition of the tragedies that marked the rush to the Yukon and the Klondike in the gold excitement of 1896. Edmonton was the fitting out point for many of the gold seekers. Few reached their destination. Disheartened by hardships, many turned back. Scores met death and their whitened bones are found from time to time on the wilderness trails.

All signs point to an unprecedented rush to Fort Norman in the Spring. Every berth on steamers on Peace, Athabasca and Slave rivers has been engaged already. The Peace River branch of the Canadian Pacific Railway is preparing to transport thousands to points of river embarkation. Many prospectors, it is said, plan to make the entire journey from Edmonton overland by wagon.

The excitement, which is the greatest that has swept the northland since Klondike days, is due to the recent sensational oil strike at Fort Norman, where a drill crew of the Imperial Oil Company brought in a well with a flow of 1,500 barrels a day.

EDUCATIONAL APPOINTMENT

The appointment of Miss Clutie Bloodworth as one of three members of the commission to select the text books for use in the schools of Alabama, is a just recognition of one of the state's most learned women. This is only one of the important places she has filled in educational engagements and she will fill this with the same fidelity, intelligence and integrity that has at all times characterized her work in raising to higher standard the youth of her state. Miss Bloodworth, while known as a force and factor in education, has attained, especially in the past few years, the distinction and recognition for learning to which she is entitled. To her friends here the appointment is most gratifying, knowing the responsibilities will be met and executed with credit to herself and the Alabama Department of Education.

OHIO FIRST

Certain Ohio enthusiasts, who see the advantages in a publicity way the state can obtain by its unique record of the year, are adopting as the slogan of their set "Ohio First."

out that Ohio ran first in the baseball, football and presidential races, displaying equal form on the diamond, gridiron and political fields. It is quite a record.

Few states have ever been able to claim the baseball championship, football leadership and president within a twelve months period. Fortunately for the rest of the country, Ohio's football prestige rests largely on the fact that the state's gridiron representatives won the title in the Western Conference. Her laurels were not won in open competition with all sections. Ohio couldn't get into the Olympic games as an individual state, either and so the remaining states of the Union may share some of the glory Uncle Sam's winners obtained.

"Ohio First"—it's a good slogan but in the midst of their victories, Ohio should not forget the state is only a small part of America. Neither should her citizens be unmindful of the duties of their exalted position, lest again "the first shall be last."

CHRISTMAS

There is one thing about the Christmas season—it is a season when the predominant idea is that of giving.

Everyone seems enthusiastic in giving. People are eager to give presents to friends; alms to the poor, service to others. Hours upon hours are spent in preparations for gifts and plans for giving.

Everyone seems possessed with the idea of spreading happiness. They seem to want a joyous note in every life, and every beat of every heart a pulsation of friendship and love for all mankind.

Wouldn't it be fine if the Christmas season could last all the year? Wouldn't it be glorious if genuine brotherly love could last for ever and for aye? The season cannot last the year round, however, for then it would be no season; it would become common, and commonplace things become uninteresting and soon lapse into nothingness.

And so, Christmas comes but once a year—and with its coming it always brings radiance, joy, gladness, happiness to every heart.

The spirit of giving, of giving gifts and of giving love, and sympathy and kind consideration is attributable to the life and works of the Master, who gave his years in service, who gave the best that could be given for others; whose life of love was a resplendent benediction for all who would accept; whose vicarious suffering, even to the pangs of an apparently ignominious death was freely made for the world's redemption.

The Master said: "The poor we have with us always." And so we have today the poor and the needy, even as in the time of the incomparable Man of Galilee.

It is commendable during the Christmas season, when we come to celebrate the anniversary of our Savior, to give to our friends and loved ones; it is doubly commendable to give to those who feel the bitter pangs of want, and cannot help themselves.

How splendid it would be if one might never know want till relief is at hand! But it cannot be. Some must suffer. Fortune does not smile on all. Some must feel the gnawings of hunger; some must feel the heavy hand of disease; some must feel the lack of a place where honest toil may be given for a just recompense. And thus "the poor we have with us always." But let us rejoice that where the poor are, also are to be found warm hearts, and willing hands to be extended in the time of need and for the alleviation of distress. Man feels sorrows not his own; and is himself blessed thereby. Individuals, societies, lodges, churches, municipalities all join in the vast enterprise.

And may Fortune fill the cup, where Charity guides the hand.—Troy Messenger.

MARKETS OF EUROPE
SEEK AMERICAN COTTON

Poland offers a special field for the newly former cotton export corporation to function in supplying credit for a big block of Southern cotton. Announcement is made by Senator Hitchcock that Poland is eager to buy 300,000 bales of American cotton, provided a way can be found to secure credit extension for the money involved. Prince Lubomirski, Polish minister, has told Senator Hitchcock that his country already has arranged for credit in England for the purchase of wool, and the need for cotton is even greater.

Poland is but one of the war-depleted nations of Europe needing American cotton. There would be such a demand for cotton that the Southern surplus soon would be exhausted and the price would get back to the previous figure of 40 cents if the European need could be supplied. The only difficulty is in finding a way to supply the European nations with money, through loans or credit extensions, and this is one of the chief purposes of the cotton export corporation.

The promise for the future is much brighter for the Southern cotton grower than appears on the surface. Agencies are at work to provide a way for the South's cotton to get to European countries needing it and it will not be a great while until the stored cotton will be going overseas, relieving the situation at home, putting money into the pockets of Southern farmers, restoring the price to normal and making the home demand greater by reducing the available supply.

The thing for the Southern farmer to do is to sit tight, hold to his cotton for a little longer and then make his plans not to be caught again as he was this year. This latter can be provided, against a reduction of at least one-half of the South's cotton acreage, and if that is done there will be no more slumps in cotton prices to demoralize trade and threaten the farmer with ruin.—Anniston Star.

Most people who live within their incomes experience a very circumscribed existence.

The League of Nations, so lately "deceased" is taking a temporary vacation, after taking into full membership some eight or ten new nations.

One main difference is being deprived or robbed of your liquor and your money, is that while you can get more money, it is extremely difficult to honestly get another quart of "red eye."

The strenuous life begins in earnest now that the late Christmas shopper has at last got busy.

Voice of People

Editor Albany-Decatur Daily:

I have noticed in your columns a suggestion that following a custom in other places, the men's Bible classes of the Twin Cities held occasional joint meetings, at some place mutually agreed upon. I think it would be a good idea if the men's Sunday school classes of Albany and Decatur would hold such joint meetings on some Sunday early in next year. I, of course, do not speak for anyone but myself, but I am sure the large majority of the men who are in Bible classes will favor such a plan.

Wishing the Daily a happy Christmas and a prosperous New Year,
Very truly,
D. D. GIBSON.

Decorative Church Windows Have
Long Been a Form of Ornamenta-
tion Beloved by the Faithful.

The art of glass decorating is not a
modern Bohemian accomplishment.
The Roman cathedral of Prague con-
tained in 1276, two windows which
were decorated with Old and New Testa-
ment scenes. Decorative windows
soon became a favorite form of church
ornamentation. Asnaes Stylious, who
subsequently became Pope Pius II and
incidentally was a very close student
of contemporary affairs of Bohemia,
records that the churches of the
Czechs possessed many "high and wide
windows which were brightly and ar-
tistically decorated, and such style of
decorating was not confined to the
churches in the large cities and towns,
but even the distant hamlets prided
themselves on churches containing
windows ornamented in a similar fash-
ion." The curriculum of the division
of technical arts of the University of
Prague included courses in painting,
wood carving and glass ornamentation.
No degree was ever conferred on a
student unless he could exhibit suffi-
cient aptitude as a "glass man" or
quality in "glassery," a practical de-
monstration of the high esteem in
which this branch of the arts was held.

The Last, Best Hope.

Edmund Burke called the American
Constitution "an event as wonderful as
the appearance of a new star." Wil-
liam Gladstone called it "the greatest
political instrument ever struck off by
the unaided genius of man." Lincoln
called this republic "the last, best hope
of the earth." The American system
of individual ownership of property.
Now and then an anarchistic individ-
ual has misused his gifts, exploited the
resources of nature, oppressed the
workers. Now and then an engineer
fails; shall we give up the locomotive
and go back to the mule and two-
wheeled cart? Now and then a farmer
fails. Shall we chop down all or-
chards? To give up this system . . .
and go over to socialism is like ex-
changing wheat bread for a chunk of
fog bank or an electric light for a
tallow candle.—Dr. Newell Dwight
Hillis.

Banish Melancholy.

Following is the quotation which
was Sidney Smith's remedy for mel-
ancholy:
"I once gave a lady two and twenty
receipts against melancholy: One
was bright fire, another, to remember
all the pleasant things said to her;
another, to keep a box of sugar plums
on the chimney-piece and a kettle sim-
mering on the hob. I thought this
mere trifling at the moment, but have
in after years discovered how true it
is that these little pleasures often banish
melancholy better than higher and
more exalted objects, and that no
means ought to be thought too trifling
which can oppose it either in our-
selves or in others."

MIND IS KEENEST AT NIGHT

Fact That is Recognized by Most
Writers and Other Workers With
Their Brains.

Many writers sleep with pencil and
notebook under their pillows and a
lamp at hand, so that they may dash
off the thoughts that come to them in
the watches of the night. It is said
that Mary E. Wilkins Freeman has a
typewriter handy on an extensor
spring, which she draws out from the
wall on its shelf and places in position
before her if she cannot sleep.

There is about these thoughts a
clarity that does not come with day-
time thinking—a sureness of vision
that approaches the clairvoyant.

A problem with which we have wres-
tled in the daylight, weighing it with
all our intelligence, is settled in a
certain way, calmly and judicially,
and after mature reflection. Our deci-
sion seems the right one. And then
suddenly, in the dead of the night, that
selfsame issue bobs up before our men-
tal vision, wakes us from a sound
sleep and settles itself in quite an-
other way. In one great flash! A
strong white light has been turned
upon the brain and has revealed there
a conclusion of which we had no ink-
ling before. The processes of arriving
at it are a closed chapter. The clair-
voyant brain has registered a result
only. And again and again it will be
found to be the right, the expedient
solution.

Memory, too, is peculiarly keen in
the silences between midnight and 4
o'clock in the morning. All cobwebs
have been swept from the brain by the
first hours of sleep; the body and
nerve centers are singularly rested;
there are no noises to disturb and
some subconscious power is at work
within us.

Blasphemy was punished with death
by the law of Moses.

If there are only two eclipses in a
year, both will be solar.

COTTON MARKET

FIRST PRICES ARE UNCHANGED TO 37 POINTS HIGHER AFTER CALL

(International News Service)
NEW YORK, Dec. 23.—A much better tone prevailed at the opening of the cotton market today than had been expected in view of poor cables from Liverpool. With the exception of December, which was offered down 20 points from the call, first prices were unchanged to 37 points higher. Most of the strength came from good buying for Liverpool, account to which was added Japanese and Wall street purchases. Early selling here was scattered. Later realizing shut the rise somewhat and at the end of the first twenty minutes the list was about 20 points net higher.

TAX PAYMENTS ENRICH TREASURY

MILLIONS ARE COLLECTED. TABULATIONS TO REVENUE DEPARTMENT SHOW

(International News Service)
WASHINGTON, Dec. 23.—Revenues from income and excess profits taxes, paid to collectors of internal revenue December 15, representing the fourth installment for the year, will exceed \$650,000 and probably will go as high as \$700,000, the internal revenue bureau was informed today in advices from collectors. Revenue Commissioner Williams stated today this is a splendid showing and refutes the impression that any considerable number of individuals were unable to meet their payments.

A tabulation will be prepared in a few days, when revised reports are received, showing the returns by states.

An Appreciation

Decatur, Ala., December 23, 1920.
Messrs. Penney and Whitman, Albany, Ala.

Gentlemen:—In acknowledging the receipt of the recent remittances from the Jefferson Standard Life Insurance Company, I desire to express my personal appreciation to you and my thanks to your company for the courtesies extended me at this Christmas season.

When I applied for and received Policy No. 77075 in the Jefferson Standard on December 14, 1918, I had no thought of so soon being in need of the benefit as specified under the Disability Clause thereof. However, the affliction came, and your company was not slow to carry out its part of the contract. Not only did it discontinue the collection of premiums on my policy, but began paying me a benefit of \$25 per month on my policy of \$2500 taken out so shortly before as also the sending of checks for annual dividends thereon. And all this without charging it against the face of the policy.

Though the December installment is not due until the 26th, it is already in hand, that I might have it to use before Christmas. Such courtesies deserve the highest commendation and I am glad to be able to express it to you out of a heart of deep gratitude.

Again thanking you and wishing you all the blessings of the Christmas season, I am,

Very truly yours,
W. D. LYLE.

MONEY FOR RELIEF

SUM RECEIVED BY HEADQUARTERS FOR AID OF STARVING CHILDREN

In the face of poverty and famine, the Polish government has raised a sum of more than \$200,000 and dedicated it to the uses of the European Relief Council to defray a portion of the cost of feeding the 200,000 starving children and nursing mothers of the country during the next five months.

The sum, according to advices received at the New York headquarters of the council yesterday from its Warsaw office, has already been placed at the disposal of the PKPD, the Polish organization working for the American Relief Administration by the assumption of responsibility for all deliveries of food sent the famished country from Danzig to the various warehouses and food kitchens from which the work of human salvage is carried on directly.

Herbert Hoover, chairman of the council, in commenting on the action of the Polish government yesterday, said there could hardly be a more substantial manifestation of a desire to help itself revert to independence, as the country is utterly exhausted not only as to food resources but virtually as to finance as well.

Houston Predicts Treasury Deficit

WASHINGTON, Dec. 23.—Financial obligations of the United States government for the next two years will aggregate a total of approximately \$7,500,000,000, Secretary of the Treasury Houston told the Senate finance committee today when it resumed consideration of proposed soldier bonus legislation.

Houston predicted a deficit of \$1,500,000,000 for the fiscal year 1922-23.

"Unless something can be done to enable us to meet our financial obligations we shall have to look about for additional revenues," Houston added. "And without assuming any additional obligation."

Paper a Weed Killer

German Taxicabs a Torment.
Present-day German taxicabs were not primarily designed to stimulate the liver; but after hitting a few rough spots one is left with a distinct impression that they exist solely to shake up the internal organs, writes Kenneth L. Roberts in the Saturday Evening Post.

As for their meters, they can be read properly only with the assistance of a slide rule and a table of logarithms. Each meter possesses seven clocks—one for the passenger, one for extra passengers, one for luggage, one for waiting, one for the luxury tax, one for the tax on capital and one for good luck. All the clocks work busily all the time—even the one for waiting.

This is probably because the passenger, due to the hard tires, is either waiting to bounce up or to fall back after a bump during the entire ride. After determining the amount registered by each clock at the end of a ride, these sums are added together and multiplied by four.

Whitening Piano Keys.
Yellowed piano keys are sometimes whitened to a certain extent by leaving the piano open every day, exposing the keys to the light. Another treatment is to lay on the keys a paste of whiting and a solution of potash, allowing it to remain for twenty-four hours.—Housewife.

COTTON BALES ARE DISCOVERED IN GULF

FISHING SMACK REPORTS "FIND" ON HER ARRIVAL AT PENSACOLA

(International News Service)
PENSACOLA, Fla., Dec. 23.—The fishing smack Louise Harper, which arrived this morning from the snapper banks, reported passing a large number of cotton bales floating in the gulf, indicating that some cotton laden steamer had gone down. The vessel brought one of the bales to port. It must have been loaded at Cuero, Tex., and was of the round and tightly compressed type. Marks on the tag, taken from the bale brought here, were indistinct, but it bore the following faint inscription: "Riggs Brothers, Nogal, Texas." The captain of the smack said there were more than 50 bales in sight.

VANDY CAGE SQUAD LOOKS HOPELESS

LOSS OF STARS SERIOUS SETBACK TO HOPES FOR CHAMPIONSHIP

NASHVILLE, Dec. 23.—With the hottest day in the year a matter of history and first term examinations but a memory, the Commodore basketball squad has beat it to the tall, untutored to spend Christmas with the "home folks." As soon as Santa has deposited his annual outlay in their respective socks, the Commodores will hurry back to Nashville to begin their annual Christmas-New Year trip which begins December 27.

From Nashville the Vanderbilts will journey to Memphis, where they will meet the Memphis "Y", then go to Birmingham where the B. A. C. squad has been scheduled for a round or two on the gym floor.

The Atlanta Athletic Club game was cancelled several days ago and the Commodores will return to Nashville to meet several high-class teams from the North and Middle West, including the University of Michigan quintet on New Year's Day and the Illinois Athletic Club.

The Commodores have not shown up his year as was at first hoped by Coach Zerfoss and followers of the Gold and Black who saw a championship team produced in the ranks of the C. I. A. A. with the unbeatable Cody-Adams-Norton-Zerfoss-Graves combination. This season the Commodores had some likely looking material on hand, but the job of plugging gaps left by the departure of the "Big Four", Cody, Adams, Norton and Zerfoss, has proved one that is not only Herculean in its proportions but almost impossible of accomplishment.

However, the Commodores are humping along at a good clip in practice and managed to dispose of the Middle Tennessee Normal Five in fair shape. They will be given an opportunity to show their calibre on the coming trip.

SPLENDID RECORD MADE FOR MONTH

DECATUR STATION SENT 49 MEN
TO ARMY ALREADY IN
DECEMBER

The Alabama army recruiting district accepted 345 men for the army during the first 20 days in December, of which number the Decatur station furnished 49. The best previous monthly record was 372 men in November and December is certain to exceed that figure, according to Colonel Saffarans, the recruiting officer.

The drive to fill up the 5th Division at Camp Jackson, Columbia, S. C., is well under way, the Alabama district having sent 56 men to that division since the beginning of the drive, December 5.

Several units of the "Red Diamond Division" which won fame on the battlefields of France, have been allocated to this state and many Alabamians will be found serving with the 20th Field Artillery, 11th Infantry and 7th Engineers.

The schools of the 5th, which are among the best in the army, are in their second year of operation, with a faculty of 63 civilian instructors, which include 31 women. There is a special school for illiterates as well as two courses in general education, a West Point preparatory course for soldiers who wish to become officers, and a college course at the University of South Carolina, where any soldier in the 5th Division may enter with free tuition, if he is qualified. To men who want to learn a trade, there are no better opportunities offered anywhere than at Camp Jackson. The vocational schools cover instruction and training in 37 crafts, from animal husbandry and horticulture, auto and truck repairing, bookkeeping and stenography, radio and telegraph operating, blacksmithing and plumbing and on to music, cinema operating, highway and bridge construction. The following men enlisted between the 9th and 20th:

From Huntsville—Floyd M. Lewis, Luther L. Grant, Thomas M. and Albert M. Rosenblum (brothers), Lonnie R. Jones, Charlie Fuston, Marvin W. Tutledge, James E. Hatfield, Jesse J. Jones, Oscar Sharp, Clay McCorum, Pearl Coups and Doyle Goodson.

prizes, but they neglect it. Ask yourself this question: "What could I do if I joined the Automobile Campaign?" If you will but give us the opportunity we will outline the plan of the campaign and we are sure that after you become acquainted with the method, we dare say that you will become an enthusiastic as ourselves.

The Automobile Campaign managers would welcome ten or fifteen more workers. The more workers there are the easier the prize winning becomes as the work is more evenly divided among the contestants, and it will not take so many subscriptions to secure a majority. Send in your nomination coupon today and line up with the good folks of this section of the state who believe in doing things worth while.

You will enjoy being one of us and we shall be more than pleased to count you as one of the active contestants of the Automobile Campaign.

Who knows but that you may prove to be the winner of one of the big automobiles; you may be a world beater at the vote-getting business and do not know it.

Special Offer

A Special Offer now on entitles the

contestant to 50,000 Extra or additional votes upon each \$18 worth of subscriptions turned in during this week. This amount of business is easily secured and the workers have already demonstrated the fact that the Daily is in demand in every home in this locality. While the campaign as announced several days ago, the real race is just beginning and new names are being added to the list each day. There are several 'soft spots' remaining, we mean by that, that there are communities in which subscriptions are plentiful that as yet are not represented. A little effort on the part of a live contestant will yield enough business to earn one of the prize beauties and there is no reason whatever why that person should not be you. Enter the race today and prove to yourself that you are made of winning material—you can do it.
